

PRESS RELEASE

October 23, 2014

SMART TEMPS, LLC RESPONSE TO 'SHELLSHOCK' SECURITY EXPLOIT

SMART Temps[®] is aware of the vulnerability, dubbed "Shellshock," which is a security concern for both enterprise and consumer systems. The bug is what's known as a Remote Code Execution vulnerability.

Our servers, firewalls, and equipment are **not susceptible** to Shellshock because we do not use the affected software with the vulnerability. It is safe and secure for users to interact with the SMART Command Center[®] Website. **Therefore, our SMART Temps customers DO NOT need to change SMART Command Center[®] Login Passwords.**

If you have any questions please **call 877-272-3111** or **email support@smart-temps.com**.
